

Lusterlume 27

Lusterlume 27 is an exceptional liquid cleaner-burnishing compound especially formulated for both conventional barrel and vibratory finishing. Lusterlume 27 may be used on most metals, but is especially indicated for use on copper, brass, zinc, and aluminum. Lusterlume 27 possesses exceptional detergent properties, permitting its use on many moderately dirty or oily surfaces.

Features & Benefits

| | |
|--|--|
| May be used on most metals; outstanding on nickel, stainless steel, and copper alloys | May be used in all types of equipment, conventional barrels or vibratory types |
| Leaves no undesirable soap films on the work. Free rinsing: work can be plated without any difficulty after rinsing. | Concentrated material; low use concentration usually satisfactory |
| Possesses unusual detergent properties. Works well even on many moderately oily surfaces. | Effective on tarnished brass or copper |

Physical Data

| | |
|------------|---------------------------|
| Appearance | Clear, water-white liquid |
| pH | 2.0 (concentrate) |
| Odor | Pleasant aromatic |

Operating Conditions

| | |
|----------------------|--|
| Conventional barrels | 1/2 – 4 fluid oz/Gal concentrate |
| Vibratory systems | Feed to maintain concentration at 1/4 – 4 oz/Gal Aspirator or proportioning devices may be used |

| | |
|--|---|
| | Use at room temperature to 140°F The higher ranges will produce faster results |
|--|---|

Waste Disposal

Discharge to a disposal system. In order to be completely informed on the latest regulations for your area, please contact the local authorities.

Caution

Lusterlume 27 is an acidic compound. Observe normal handling procedures. Wear protective clothing and gloves. Flush exposed areas with water. Contact a doctor immediately in case of injury.
